

ANSUL Sentry
Dry chemical extinguisher designed for light and ordinary hazard protection. The compact design is ideal for protecting hallways, stairways, offices, classrooms, residence halls and other highly traveled areas.

Dry Chemical Wheeled Extinguisher
Designed to protect where the potential for large fires exist. The ANSUL CR-1-150-D is ideal for parking garages where fire trucks do not fit.

Dry Chemical Hand Portable Extinguisher
RED LINE cartridge operated extinguishers are designed to protect people and property in high risk hazard areas such as fueling, welding and service shops.

ANSUL Sentry
Dry chemical extinguisher designed for light and ordinary hazard protection. The compact design is ideal for protecting hallways, stairways, offices, classrooms, residence halls and other highly traveled areas.

ANSUL Sentry
Stainless steel water extinguishers can be utilized in many Class A hazards such as bookstore, office and warehousing areas. The product is designed to suppress fiber materials such as paper and cardboard.

R-102™ Kitchen System
The R-102 Liquid Agent System continues to be the #1 protector of today's kitchen equipment. Quickly knocks down flames and cools hot surfaces to prevent reflash. Two design options provide for economy and flexibility.

PIRANHA Kitchen System
PIRANHA kitchen systems feature two extinguishing agents: fast flame knockdown and securing power of wet chemical plus the cooling capability of water. Cools down cooking oils 15 times faster than single-agent systems.

K-Guard
Designed to exceed the UL 8 and 711 standards. The wet chemical agent is designed for use on fires that involve vegetable oil or animal fats in commercial cooking equipment. This is a MUST in your food preparation areas.

Dry Chemical Hand Portable Extinguisher
RED LINE cartridge operated extinguishers are designed to protect people and property in high risk hazard areas such as fueling, welding and service shops.

CleanGuard
Designed to safely protect sensitive electronic equipment like computer rooms, telecommunication equipment, data storage, lab equipment and irreplaceable assets found in libraries and rare book collections. The agent leaves no residue to clean up and is extremely low in toxicity.

Spill-X
Acids, organics, caustics, formaldehyde... SPILL-X spill control agents are the easiest, fastest, and most efficient way to handle and treat chemical spills in the laboratory.

ANSUL Sentry
Dry chemical extinguisher designed for light and ordinary hazard protection. The compact design is ideal for protecting hallways, stairways, offices, classrooms, residence halls and other highly traveled areas.

INERGEN
INERGEN clean-agent, inert gas systems protect sensitive or critical assets where damage from conventional agents cannot be tolerated. "Green" agent boasts ZERO ozone depletion potential, ZERO global warming potential and ZERO atmospheric lifetime.

SAPPHIRE
SAPPHIRE systems use 3M™ Novoc™ 1230 fire protection fluid: a safe, effective, chemical clean-agent for total flooding applications where sensitive or irreplaceable materials are contained.
