
AIISTATE FIRE EQUIPMENT also offers:

SPECIAL HAZARD SUPPRESSION INSPECTION AND SERVICE

When it comes to Special Hazard Fire Suppression we do it all, including wet chemical systems for commercial kitchens, dry chemical for industrial applications & paint spray booths, clean agent applications (waterless) for areas with sensitive electronic equipment and data, as well as other special hazard needs.

FIRE ALARM INSPECTION AND SERVICE

Our Alarm Division is Fully Trained and Licensed to help with all your Fire Alarm system needs. We also offer Burglar and Digital Camera system installations to protect your business and/or home and our monitoring service provides you with 24/7, 365 days a year protection.

EMERGENCY LIGHT INSPECTION AND SERVICE

These devices require a 1½ hour duration test to be conducted annually per NFPA-101 life safety code. Let our professionals inspect and assure that every aspect of your emergency lighting is designed to guide everyone to safety in the event of a fire or power outage.

24/7 SERVICE—365 DAYS A YEAR

Our 24-hour emergency service is offered to all of our customers. We take your fire protection very seriously and will respond to your emergency call immediately.

PORTABLE FIRE EXTINGUISHER INSPECTION AND SERVICE

Fire extinguishers are required to be maintained annually and inspected monthly. Our NFPA-10 certified technicians will ensure you have the right extinguishers for the specific hazard being protected and the quantity meets the required code. We are an approved DOT re-test facility.
